SUMMARY

Passionate and dedicated web developer with a strong understanding in web development and programming concepts. Focus on problem-solving and continuous learning and eager to learn new technologies and contribute by delivering high-quality work.

TECHNICAL SKILLS

Programming Languages: Python, C++, C, JavaScript, SQL

Web Technologies: HTML5, CSS3, React.js, REST APIs

Libraries & Tools: NumPy, Pandas, Matplotlib

Core Skills: DSA, OOPs, DBMS

PROJECTS

Currency Converter

June 2026 – Present

Web Development Project

HTML, CSS, JavaScript, REST API

- Integrated a REST API using JavaScript fetch() and asynchronous programming (async/await) to retrieve and process real time currency exchange data.
- Implemented dynamic currency dropdown generation, automatic country flag updates and real time conversion through DOM manipulation.
- Managed JSON API responses, user interactions and input validation to deliver a responsive and interactive user experience.

Tic-Tac-Toe

may 2026 – Present

Web Development Project

HTML, CSS, JavaScript

- Developed a responsive Tic-Tac-Toe game using HTML, CSS and JavaScript with dynamic DOM manipulation and event driven programming.
- Implemented customizable player symbol selection, turn management, game state control, winner detection logic, and reset/new game functionality.
- Designed an interactive user interface featuring symbol-card selection, real-time turn indicators, input validation, and game state locking to prevent mid-game configuration changes.

Bright Future Academy

Feb 2026 – Present

Web Development Project

HTML, CSS, JavaScript

- Built a responsive multi-page coaching institute website using HTML, CSS, and JavaScript with user-friendly navigation and interactive UI.
- Designed a contact and enrollment form with client side validation and integrated email services to process and deliver user inquiries directly to the administrator.
- Created an end-to-end inquiry workflow from course exploration to enrollment request submission, improving user engagement.

EXPERIENCE

Machine Learning Intern

March 2025-April 2025

EdiGlobe

Jabalpur,M.P

- Learned Python programming and Machine Learning fundamentals, including different learning techniques, algorithms, and their practical applications.
- Completed minor and major projects involving disease-related datasets by extracting, processing, and analyzing relevant data using Python, Pandas, NumPy, Matplotlib and Seaborn.
- Applied Python programming to process datasets, perform required operations, and generate meaningful outputs based on project requirements.

International Conference on Novel Materials and Applications

Feb 2025

Content Team

JEC, M.P

- Led and coordinated content development for the conference website and brochure, ensuring clear communication and professional event representation.

Graphics Designer

JLUG

Dec 2024 – Present

JEC, M.P

- Created impactful visual designs for technical and community events by transforming ideas into engaging and audience-focused graphics.

Content Writer

E-Cell

Dec 2024 – Present

JEC, M.P

- Crafted compelling content for startup initiatives, enhancing event outreach through effective storytelling and communication.

EDUCATION

Jabalpur Engineering College

B-Tech in Computer Science and Engineering

Jabalpur, M.P

Aug 2024 – May 2028

Kendriya Vidyalaya Betul

SSC in Science

Betul, M.P

April 2022 - May 2023

First Step Higher Secondary School

HSC

Chhindwara, M.P

April 2020 – May 2021
